

SMOKE/FUME ABSORBER

CLN-950.00

The **Smoke/Fume Absorber** is used to help eliminate by-products of soldering from a work area.

This appliance is intended for adult use only.

- Must be used on a flat, dry surface.
- Do not use if power cord becomes damaged.
- Always unplug before changing filter.
- Under normal conditions, the filter should be replaced once a month to optimize efficiency.

Operating Instructions

- Loosen knob and adjust to desired angle.
- Open filter guard and install activated carbon filter.
- Close filter guard, plug in power supply and turn on power switch.
